It probably won't surprise you to discover that this idea began late at night. We were driving back from seeing Fifth Element. Phil Bolton, who was in the back seat, started talking about albino squirrels. Over the noise of the car, I heard "vinyl squirrels" instead, and asked Phil what on earth a vinyl squirrel was. Flinthoof put the ideas together to get "vampiric albino vinyl squirrels". The subject was dropped and there it might have stayed except for some dental work I had done. The painkillers the oral surgeon gave me had some mild but interesting side effects, and it was under their effect that the idea mutated to become "vampiric albino squirrels in vinyl", and thence a 'zine. It wasn't easy; I'd like to thank all our contributors for taking the time to produce art especially for this project.
